Margaret Douglas has worked hard to put her painful past behind her. Raised off the grid in an abusive home, her only escape was the nearby forest where she sought refuge whenever she could. There, in the peaceful woods, she discovered a strange gift: the ability to understand animals and to communicate with them. And so those creatures became her only friends, her only joy during a desolate childhood. Now Margaret wants nothing more than to live a quiet life, close to the animals and under the radar. But her abilities have not gone unnoticed and there are those who would use them for their own purposes. Determined not to be a pawn in anyone's game, every time someone gets too close, Margaret uproots her life and outruns them. With those in pursuit who need her abilities to save and those who want her abilities for evil—Margaret is on the run for her life.
